Innovative technology powered by beroNet OS

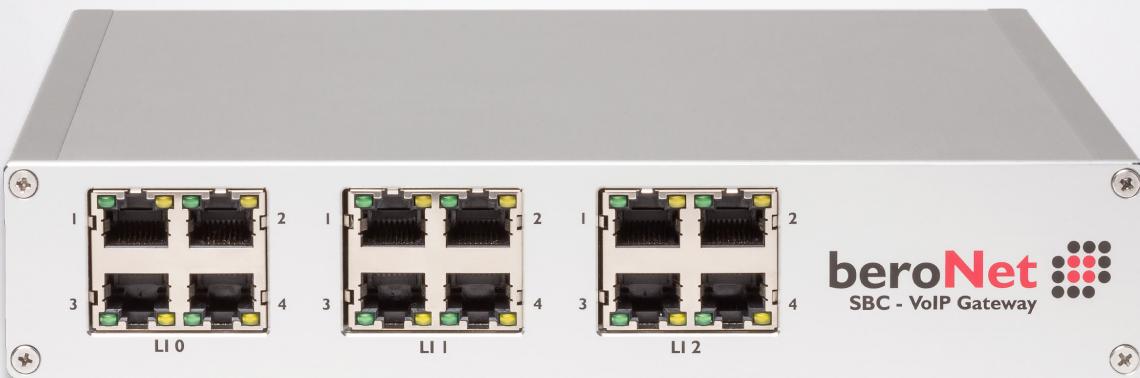

"In a space that requires constant growth and learning, beroNet has always gone far and beyond to provide us with the latest, compatible and most reliable hardware and services. It is 'this' that makes them indispensable."

Manikandan Chockalingam, CEO of CAL4CARE PTE LTD

## OVERVIEW

beroNet modular VoIP SBCs are a security solution for VoIP networks. Depending on the model, up to three beroNet modules can be added, offering any combination of BRI, PRI, FXS and FXO interfaces. Configuration is easy done via the beroNet WebGUI. The VoIP SBCs are compatible with various IP-PBX and VoIP providers and can be managed via the beroNet cloud. All models have two network interface cards.

## 5 Good Reasons for beroNet

Less time training and more time with your customers

Cloud integration simplifies remote updates and backups

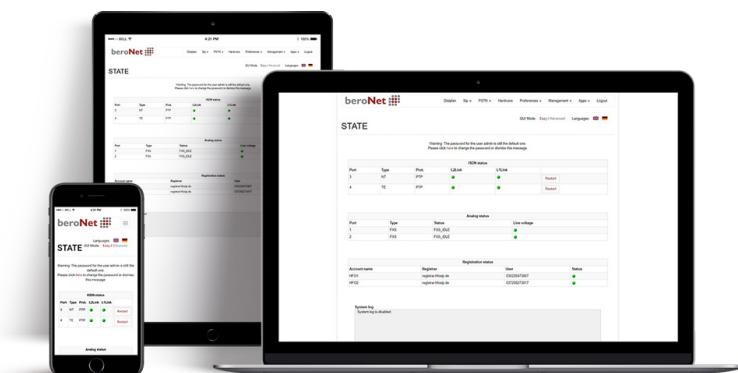

Enhanced with Apps for additional functionality

Free and premium support for when crazy things happen

Flexibility and adaptability for long-term use

## Powered by beroNet OS

beroNet OS allows you to manage your VoIP SBC using your Web Browser, register to manage and monitor the device in the beroNet Cloud, and take advantage of SBC functionality by adding SBC Software Licenses. Using the beroNet App Market you can expand the functionality of your VoIP SBC with apps like the beroNet Survival Branch Appliance (SBA) App, OpenVPN, and OpenPBX.
